Where only a credit rating appears, this line of credit designation applies, 1 2 3 4

(*d*) Where an italic *d* in parenthesis precedes a rating, it is an indication that one or more of the partners in the firm are liable in another or other firms, and the responsibility is in that sense divided, THUS: (*d*) B+1.

The absence of a Rating, whether of capital or credit, indicates those whose business and investments render it difficult to rate satisfactorily.
